

Specifications for baled pine straw:

ITB # 10-X-2218119

- Pine straw delivery cost must be included in the bid price. It will be delivered to Montgomery, Alabama and trailer should be dropped for storage until product is used.
- Pine straw should be fresh, new straw with good color and clean without weeds, trash, or other objects in the bale.
- Bid price should be for one unit but will be purchased in specified quantities per line. Purchases will be on an as needed basis.
- Product should be a large string tied bale and have a minimum of 3.14 cubic feet of straw.
- Vendor must quote to exact specifications on each line. No substitutions will be accepted.
- Lines 5, 6, 7, and 8 should include the price of the bale of pine straw, delivery, and installation in the landscape around state buildings.
- Bid will be awarded on a line by line basis.
